

K-LOVE is an positive and encouraging welcome relief from the negative bombardment of the secular radio stations. This radio station provides up to date news and information as well as an uplifting and encouraging message. If K-LOVE were no longer on the airways it would leave a void that would most likely be filled with more harmful and negative messages. K-LOVE is in the public's best interest because it offers positive music without the cursing and negative influence of a lot of today's popular music stations. Please leave this radio station on the air where it is easily accesible for the entire public because it is a welcome oasis for me and my family so that I don't have to monitor so closely what they are hearing.
